CreaseMaster™ Pro

GW 12000

CreaseMaster™ Plus+

CM Series

(impact score/crease/perforate)

CreaseMaster Manual/SCP

- Tabletop impact creasing machines.
- Perforating capability available.
- Semi automatic/manual models available.

CreaseMaster Pro

- Pneumatic impact creasing machines for low to mid volume users (requires compressed air).
- Inverted and regular impact scoring in the same pass.
- Menu driven touch screen controls.
- Up to 2,500 sheets per hour and 5 scores per sheet. Up to 3,600 sheets per hour with software upgrade.

CreaseMaster Platinum/Plus+

- Floor model pneumatic impact creasing machines for mid to high volume users (requires compressed air).
- Horizontal air feed; feeds from the bottom of the stack which allows for continuous loading while running.
- Up to 8,000 sheets per hour and 10 scores per sheet.
- Rotary perf and score included.
- Optional strike perf available.

The CreaseMaster series is designed with the digital marketplace in mind.

These systems impact score materials prior to folding, eliminating the problem of toner cracking on digitally printed stock.

VividCoater

The VividCoater is a low maintenance ultra violet cured coating system that produces a high quality finish to the printed sheet.

With a wide range of finish options, including matte to high gloss, UV coating not only makes printed products lively and brilliant, but also offers powerful protection against friction and fading.

- Speeds up to 5,000 sph.
- 80# text to 1/4" rigid stock.
- Vacuum hold down throughout.
- Precision coating metering adjustments.
- Digital touch screen with full system diagnostics and variable speed control.
- Polished chrome metering and bottom rollers.
- Special high density UV resistant applicator roller.
- Built in heavy duty vacuum exhaust system.
- Compatible with all major digital and offset print engines (IR option available).
- Switches between various coatings in minutes with no waste.
- In-line integration of optional feeder/stackers.

VividCoater™

GW Series

(number/perforate/score)

GW Junior

- Tabletop numbering machine.

GW 3000

- Up to 3,000 sheets per hour.

FM 150

- Up to 20,000 sheets per hour.
- 30-inch long register board and perfect registration.
- Conveyor outfeed system included.

FM 150

Modular Design:

Any GW model can be upgraded to any other GW model...

The benefit...you never have to trade in your existing machine for a more productive one.

If you outgrow it, simply upgrade it.

GW 8000P-DS shown with optional heads.

Warranty

Graphic Whizard stands behind the quality of our machines with a FIVE YEAR LIMITED WARRANTY. This is the best in our industry and reflects our commitment to our product line.

All specifications are subject to change and are correct to the best of our knowledge.
